supervisor	<p>critical reflection.</p> <ul style="list-style-type: none"> • reflecting on how this procedure is informed by relevant recognised authorities • planning and discussing ways to engage with families and communities, including how changes are communicated. • developing strategies to induct all staff when procedures are updated to ensure practice is embedded.
Preschool educators including K-6 staff, relief staff and casual staff	<p>The preschool educators are responsible for working with leadership to ensure:</p> <ul style="list-style-type: none"> • all staff in the preschool and daily practices comply with this procedure • storing this procedure in the preschool, and making it accessible to all staff, families, visitors and volunteers • being actively involved in the review of this procedure, at least annually, or as required • ensuring the details of this procedure's review are documented. • analysing complaints, incidents or issues and what the implications are for the updates to this procedure.

Enrolment

Children can enrol in a department preschool from the beginning of the school year if they turn four years of age on, or before, 31 July that year.

A preschool expression of interest pack is created by the school office staff to be given to prospective families. The pack contains an expression of interest form that gathers information about the child and family including priority placement details, immunisation records and details about additional needs. Families can also indicate a preference for enrolment pattern or no preference.

Orange Grove Public School Preschool caters to 40 children across the week, over the two enrolment patterns, with 20 in each group.

Our preschool offers two enrolment patterns to children across the week to meet the requirements of Universal Access - 600 hours of quality education and care in the year before commencing school. These are recorded as Group A and Group B on the expression of interest form. The groups attend as follows:

Semester 1 (Terms 1 and 2) – Group A: Monday, Tuesday and Wednesday

Group B: Thursday and Friday

Semester 2 (Terms 3 and 4) - Group A: Monday and Tuesday

Group B: Wednesday, Thursday and Friday

Please note: All Group B families are expected to pick up the third day in Semester 2 to satisfy the required 600 hours for the Universal Access to preschool agreement.

Department preschools enrol children for one year only, the year before they start school. In exceptional circumstances, the principal may consider an additional year of attendance after consultation with the parent/carer, the preschool teacher and other relevant personnel. If this is the case, the child is to be considered as a new application and prioritised in the same way as all new applications. This only applies if the child is eligible for preschool both years based on their date of birth i.e. a child can only attend if they turn 4 before July 31st of their first year of Preschool. Children must be enrolled in Kindergarten by the time they turn 6, except in exceptional circumstances, with approval from the Director, Educational Leadership within the Department of Education.

Expression of Interest

As Orange Grove Preschool usually has a higher number of applications to enrol than places to offer to children, families need to submit an expression of interest to be considered for enrolment at Orange Grove Public School Preschool.

Children do not have to reside within the school's catchment zone to attend the preschool, however families within the school's catchment area will have priority of entry over families who do not reside within the school's catchment area, based on the Department preschool enrolment procedures document.

Expressions of interest for the preschool open on the first day students attend in Term 2 in the year before enrolment.

Prior to this date, the preschool holds a community open evening for prospective families to provide information about the preschool operation, governance, philosophy and program as well as inform families about the expression of interest and enrolment procedures. Families should contact the school for the specific date of this event each year.

Families can get an expression of interest pack on or after the first day of student attendance of Term 2 by visiting or calling the school office. Expression of interest forms must be submitted by families to the school office before the due date, which is in the last week of Term 2. Families should check with the school for the specific dates each year. Expression of interest forms are stored in the school office until the Preschool enrolment panel meets in Term 3.

Information collected through the expression of interest form includes,

- Child's name, gender and date of birth
- the family's home address
- Aboriginal and/or Torres Strait Islander origin
- Whether the family has a Government Health Care Card
- Details about whether the child's immunisations are up to date
- Details of the child's parents and/or carers
- Details about any additional needs, medical conditions or other factors about the child.
- The families' preference for enrolment pattern

In addition, families are asked to provide the following documentation along with their expression of interest:

- I. Documentation regarding [immunisation](#).
- II. Proof of address – eg. Utility bill
- III. Proof of child identify - e.g. Birth certificate or passport
- IV. Health Care Card (if required)
- V. Evidence of disability or learning need to confirm diagnosis– e.g letter from occupational therapist (if required)

The expression of interest form is reviewed each year by the Preschool Team prior to the start of Term 2. Changes to the form are made based on input from families and critical reflection about the expression of interest process. Changes to the process are communicated to families through the community open evening session and when they contact the school office to collect a form.

Enrolment Panel

After the end of the expression of interest period, a panel is formed and positions are offered to families, based on the criteria and priorities outlined in the [Department of Education Preschool Enrolment Procedure](#) which gives priority of enrolment to children who fall under the following categories:

- Aboriginal or Torres Strait Islander children
- children living in low socioeconomic circumstances
- children unable to access other early childhood services due to disadvantage or financial hardship.

After children who fall under these categories have been offered enrolment, the panel then considers other applications to fulfil any remaining preschool spaces.

Children do not have to reside within the school's catchment zone to attend the preschool, however the preschool enrolment panel will prioritise enrolment to children in the following order (after the above priorities):

1. children living within the school's enrolment designated intake zone
2. children living outside the school's designated intake zone and who have siblings enrolled in the school.
3. children living outside the school's enrolment designated intake zone.

Orange Grove Public School preschool generally receives more expressions of interest from children living within the school's enrolment catchment than there are spaces to offer in the preschool, so applications from within the school's catchment are further prioritised by date of birth. **Older children are prioritised over younger children.** If applications for children living outside the school's enrolment catchment are considered for enrolment, priority is also given by date of birth, with older children receiving priority over younger children.

A gender balance is taken into consideration when collating the enrolments into program groups to promote children's social development. There is no priority given according to the date the applications are received or whether children have siblings who attend Orange Grove Public School, other than specified above.

If any applications remain after the number of spaces in the preschool have been filled, a waitlist will be formed following the above priority procedures. Children on the waitlist may be offered an available space in either Preschool groups at any point from the date of the enrolment panel and throughout the following year.

First round offers are made via email to families whose children have been allocated a space in the preschool. There is a 2-week period for families to accept or decline an offer of enrolment. School office staff collect responses. After the 2 week period, where families have not accepted the offer to enrol, a second round of offers will be made via email to children on the waitlist in order of priority. Offers will be made based on availability in either group, not based on the preference indicated on the expression of interest form.

After the second-round offers have been made, all families who did not receive an offer to enrol are informed by email that their application was not successful. Families are informed that their application has been placed on a waitlist and they may receive an offer to enrol at any time, if a space becomes available before the end of the following year. The waitlist is valid for the year of application only.

Where families inform the school office that they no longer wish to enrol at preschool after the initial offer rounds, additional spaces may be offered to children on the waitlist. Offers will be made based on availability in either group, not based on the preference indicated on the expression of interest form.

Enrolment Process

Families offered a position in the preschool for the following year are provided with an enrolment pack by the school office. In the pack, families are asked to complete the "[Application to enrol in a NSW](#)

[Government preschool](#)" form and supply the required supporting documentation listed in the form, if not already provided as part of the expression of interest.

School office staff check the enrolment forms are filled correctly and verify the supporting documentation for each child. School office staff contact families to rectify any errors or incomplete documentation before their enrolment is accepted. The principal reviews the enrolment records for each child to verify if the enrolment is accepted.

Storage and use of enrolment documents

Enrolment documents are collected and stored by the school office, on site. Critical information about each child, such as emergency contact information, authorised collectors, any non-authorisations and medical conditions is printed and stored in the preschool office, in specific folders and locations on the wall.

Orientation/Transition to Preschool

The preschool family handbook provides families with general information about the preschool and summarises key preschool procedures. The handbook is reviewed annually by the preschool team based on critical reflection and feedback from current families collected via survey.

Children and families are supported to transition into preschool through the Transition to Preschool process.

Families of enrolled children are invited to attend an information session in Term 4, the year before their child begins preschool. The session is presented by the school principal and preschool educators. Information about the operation of the preschool, the governance, educational program as well as any day-to-day information is shared with families. Families are given a pack including the preschool handbook, relevant authorisation forms and information about healthy lunchboxes.

The pack also includes a social story directed at children containing photos of the preschool along with a story outlining the different routines and activities available during the preschool day. Information is provided to families at this session about the transition interviews and orientation visit, which they can book in for using an online booking system. Families are notified about the staggered starting procedures on their child's first days of preschool and given a letter with the date and time of their child's allocated time slot.

Families of enrolled children can book to attend a 30-minute one-on-one transition to preschool interview with one of the preschool educators. Through this interview, families share information about their child's needs, interests, development, personality, cultural background, toileting needs, sleep and rest requirements, dietary information, medical conditions as well as goals they have for their child's year at preschool. Families also have the opportunity to ask the educators any questions they may have. Educators and family members use this meeting to plan for each child's smooth transition to preschool.

After the transition interview, families and children attend a preschool orientation visit on site. Children attend the orientation visit with their parent or carer alongside other children who will be in their group at preschool. A tour of the preschool is offered to families and children as well as a chance to play in the spaces and ask any questions. Educators observe children's play and interactions with the preschool environment and other children to help them learn about each child. This information is then used for initial planning for each child's transition.

Orange Grove Public School Preschool staggers the starting dates for children on their first day of preschool. Small groups of children start at different times on each day over a period of 2 days for each group to allow families and children more time to settle and a greater ratio of educators to children on their first time at preschool. Information about staggered start times is provided at the information evening and transition interview.

Children with Additional Needs, Medical Conditions and in Foster Care

Children who have been identified in the expression of interest form as having additional needs, a medical condition or in foster care are involved in a more intensive transition program.

Families of these children are invited for a more extensive transition interview which may also involve the school counsellor, learning support teacher and/or any external professionals involved in the child's life. The interview will involve gathering information about the child's specific needs and planning for any adjustments that may need to be made to support the child. This will include any relevant reports, assessments or plans that have previously been made for the child. Additional meetings may be required, based on the child's needs, to plan for their transition to preschool and Individual Education Plan (IEP).

When required, and in the case of all children who have medical conditions, a risk management plan will be created to address risks relating to the child's medical condition and/or behaviour.

If a child may require an application for additional funding based on their disability, the school principal, learning and support Teacher and school counsellor are responsible for collection of documentation and application to the Department of Education. This would involve a separate meeting to gather the necessary information for the application. In some cases, the child may be eligible for enrolment or dual enrolment in a Department Early Intervention Preschool.

Some children will require a tailored transition to preschool. This may include additional visits to the preschool in the year prior to starting preschool and / or commencing on reduced hours or in the company of a parent or therapist. Decisions about this process will be made by the preschool supervisor and educators based on consultation with their family at the initial transition meeting and any further follow-up planning.

In some situations, at the Principal's discretion, it may be necessary for a child to commence preschool on a partial enrolment to support a smooth transition. This would be applicable for a child with a diagnosed disability with high support needs. This is done with the intention that the child's hours would gradually be increased as the child settled, and adjustments were put in place.
